UNISON's next move on NHS pay is in your hands

3%

That's what the government has decided NHS staff in England deserve.

This pay rise is not only short of the mark; it's unfair. It only delivers for staff on the very highest bands and leaves the lowest paid stranded below the real Living Wage.

Now you have an important choice to make about how we go forward collectively in UNISON.

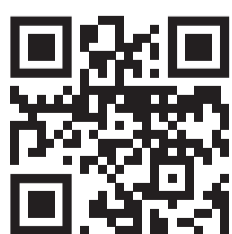

Do you want to oppose the outcome?
Are you willing to take part in industrial action to try and secure change?

You've got a powerful voice in the largest trade union in the NHS. This is your union and it's your turn to speak up.

The consultation runs from Friday 30 July – Friday 10 September.

Employed by the NHS but not yet a member of UNISON? You can have a vote too, if you join by Friday 3 September. Join online at join.unison.org.uk or call **0800 171 2194**.
